

WELCOME TO UTVECKLINGSPEDAGOGIK

Independent schools and care programs for children, youth and adults with disabilities

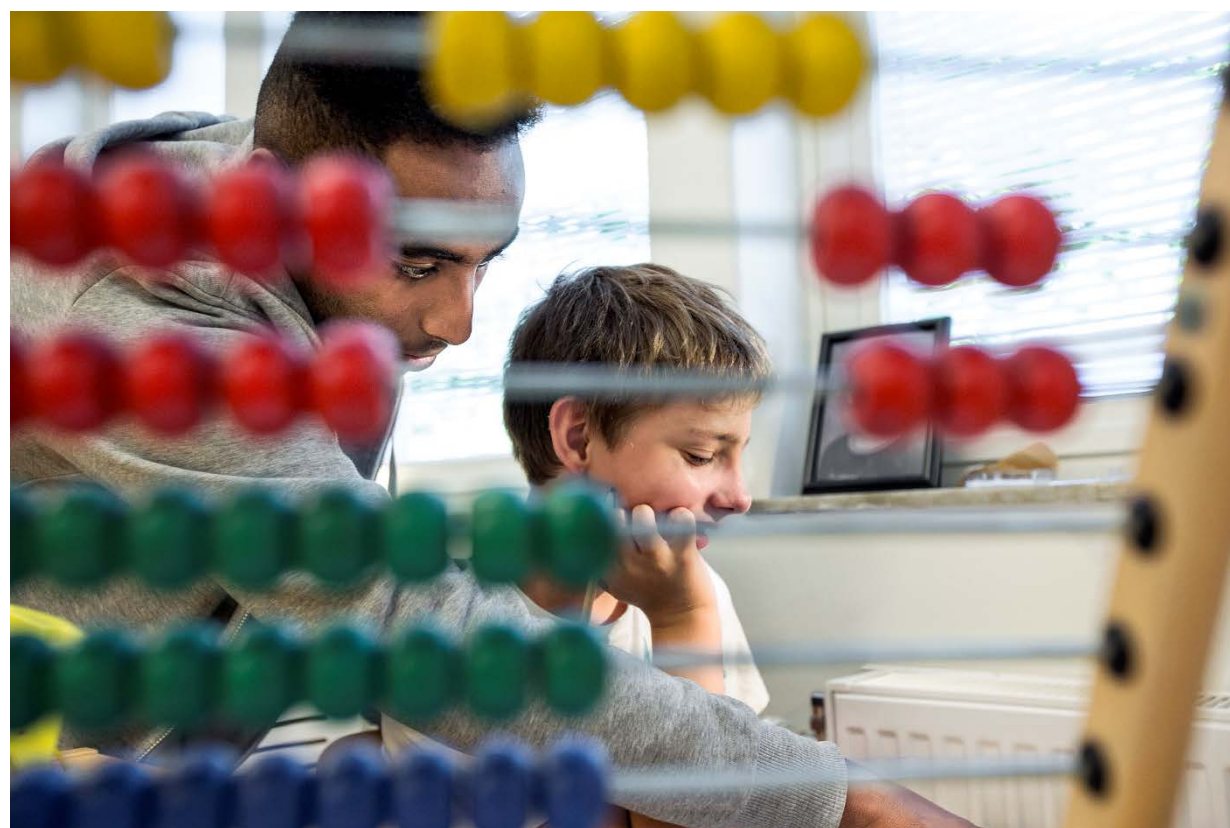

Our driving force is to provide students and users with increased knowledge, improved life quality and equip them to be a part of our community. Our activities are based on a focus on quality, knowledge, development and a great deal of commitment. Here you can also find a familiar, welcoming atmosphere, everyday joy and a genuine ambition to make a difference for the people that we are there for – our students and users. For us, wisdom and heart go always hand in hand.

WE MAKE SURE THAT EVERYONE IS SEEN. All students and users have different prerequisites. In order to make the most out of each student and user's potential and create motivation to learn as well as personal development we always look at individual strengths, interests and needs. We adjust and use suitable aids as well as tested and tried methods. To us it is a given that we need to see possibilities in each person and do our best to make the most of them.

KNOWLEDGE AND WISDOM. We want to provide our students and users with the ideal conditions needed in order for them to succeed. Therefore our activities are based on the current and relevant knowledge of our employees. With us is UP Kompetens, which offers internal as well as external courses. With the help of knowledge, wisdom, commitment and passion we spend each day working towards making our activities as good as possible for our students and users. We have our goal set on the future and we are constantly making developments and developing ourselves. Our main focus is always the students and users.

YOU CAN FIND US IN STOCKHOLM COUNTY. Our facilities can be found in Stockholm County, from Hägersten in the south to Norrtälje in the north. At the website utvecklingspedagogik.se you can see exactly where we are located. Here you can also find more information about us.

You are always welcome to contact us if you have any questions or ideas about our operation. We are constantly developing along with our students and users. And we would welcome the chance to develop with you.
